History with Electric/Gas/Both??? Involved 1 year

**Please use the space below to list your qualifications as a WSA Officer or Director: (additional pages if needed)**

On behalf of MasterGraphics, my involvement with WSA began last year when we offered scholarships to the students. Personally, I find the competitions extremely rewarding due to the involvement of the students and the opportunity they are given. As a potential Board Member, I believe I can bring the knowledge and experience from industry that would allow WSA to grow even stronger. I would like to become more involved in the organization and that is why I am submitting this candidate application. Due to prior commitments I may not be able to physically attend all the meetings but I look forward to being involved as much as I can.

MasterGraphics is a catalyst between industry and education in many ways. Committed to helping professionals and students of all levels, we are passionate advocates for continued learning and career development that will help develop the next generation of design professionals.
